

PUBLIC TRANSPARENCY REPORT **2025**

Quadriga Capital

Generated 24-11-2025

About this report

PRI reporting is the largest global reporting project on responsible investment.

It was developed with investors, for investors. PRI signatories are required to report publicly on their responsible investment activities each year. In turn, they receive a number of outputs, including a public and private Transparency Report.

The public Transparency Reports, which are produced using signatories' reported information, provide accountability and support signatories to have internal discussions about their practices and to discuss these with their clients, beneficiaries, and other stakeholders. This public Transparency Report is an export of the signatory's responses to the PRI Reporting Framework during the 2025 reporting period. It includes the signatory's responses to core indicators, as well as responses to plus indicators that the signatory has agreed to make public.

In response to signatory feedback, the PRI has not summarised signatories' responses – the information in this document is presented exactly as it was reported.

For each of the indicators in this document, all options selected by the signatory are presented, including links and qualitative responses. In some indicators, all applicable options are included for additional context.

Disclaimers

Legal Context

PRI recognises that the laws and regulations to which signatories are subject differ by jurisdiction. We do not seek or require any signatory to take an action that is not in compliance with applicable laws. All signatory responses should therefore be understood to be subject to and informed by the legal and regulatory context in which the signatory operates.

Responsible investment definitions

Within the PRI Reporting Framework Glossary, we provide definitions for key terms to guide reporting on responsible investment practices in the Reporting Framework. These definitions may differ from those used or proposed by other authorities and regulatory bodies due to evolving industry perspectives and changing legislative landscapes. Users of this report should be aware of these variations, as they may impact interpretations of the information provided.

Data accuracy

This document presents information reported directly by signatories in the 2025 reporting cycle. This information has not been audited by the PRI or any other party acting on its behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented.

The PRI has taken reasonable action to ensure that data submitted by signatories in the reporting tool is reflected in their official PRI reports accurately. However, it is possible that small data inaccuracies and/or gaps remain, and the PRI shall not be responsible or liable for such inaccuracies and gaps.

Section 1. Our commitment

- Why does your organisation engage in responsible investment?
- What is your organisation's overall approach to responsible investment, and what major responsible investment commitment(s) have you made?

At Quadriga Capital, we have long recognized that creating measurable, positive impact on the environment and society is essential for entrepreneurial success. That belief underpins our ESG-integrated investment strategy, which we have pursued for many years. With our latest fund generation, we have taken a further step by primarily targeting investments that deliver a clear, positive impact. We are committed to supporting all our portfolio companies on their sustainability journey through our proprietary QC-Sustain system and our dedicated Impact & ESG Team. QC-Sustain is a modular platform comprising tools, processes, and measures designed to strategically embed ESG and impact considerations across the entire value creation process.

Our goal is to create long-term, sustainable corporate value by integrating Environmental, Social, and Governance (ESG) standards that produce lasting positive outcomes for both society and the environment. Quadriga Capital has a strong track record in ESG integration, with well-established due diligence practices to identify and assess adverse impacts and sustainability risks. These are monitored and reported through our in-house reporting tool. We report on key indicators including: Greenhouse gas emissions Biodiversity Water and waste management Social metrics relevant to companies Climate and environment-related indicators Social factors and employee well-being Human rights, anti-corruption, and anti-bribery issues Our investment strategy focuses on companies whose products and services contribute to the UN Sustainable Development Goals (SDGs)—or have the potential to do so through transformation and impact-driven growth.

We concentrate on three key impact areas where our experience creates the greatest value: Human Well-Being & Personal Growth Preservation of Our Environment Sustainable Transformations To reaffirm our commitment to impact investing, Quadriga Capital Fund VI became a signatory of the Operating Principles for Impact Management in February 2021 and successfully completed its first external verification in July 2023. Since 2010, all portfolio companies under Quadriga Capital funds have embedded ESG standards into their business models. Through the QC-Sustain system and ongoing engagement, we go beyond risk mitigation to actively support value-creating sustainability initiatives. Our ESG and Impact efforts are guided by a dedicated internal team and an independent Impact Advisory Board, enabling us to stay aligned with evolving market practices and regulatory frameworks. Quadriga Capital is a signatory of the IFC Operating Principles for Impact Management, and our latest fund—Quadriga Capital Fund VI—is classified as an Article 8 fund under the Sustainable Finance Disclosure Regulation (SFDR).

Section 2. Annual overview

- Discuss your organisation's progress during the reporting year on the responsible investment issue you consider most relevant or material to your organisation or its assets.
- Reflect on your performance with respect to your organisation's responsible investment objectives and targets during the reporting year. Details might include, for example, outlining your single most important achievement or describing your general progress on topics such as the following (where applicable):
 - refinement of ESG analysis and incorporation
 - stewardship activities with investees and/or with policymakers
 - collaborative engagements
 - attainment of responsible investment certifications and/or awards

Quadriga Capital was among the early adopters of ESG in the private equity sector, initiating its ESG program back in 2007. Since then, we have consistently advanced our ESG integration strategy. Recognizing the critical importance of reliable and comprehensive data, Quadriga Capital partnered with Cority's Reporting21 platform in 2022. As of 2022/23, we collect, analyze, and report on nearly 150 KPIs, aligned with major sustainability and regulatory frameworks—including the Sustainable Finance Disclosure Regulation (SFDR), the European Data Convergence Initiative, and Invest Europe. The insights gained from this robust dataset inform the continuous improvement of ESG performance across our portfolio. For each portfolio company, we identify targeted improvement measures, which are actively tracked and supported. Starting in 2023, Quadriga Capital began collecting and calculating Scope 3 emissions for the majority of its portfolio companies, reflecting our commitment to a full-scope sustainability approach. We maintain strict compliance with both legal and voluntary ESG requirements and provide regular updates to our investment team and portfolio companies. All investment decisions are reviewed and discussed with our Impact Advisory Board, which convenes regularly through formal meetings and alignment calls to ensure full ESG and impact alignment. Quadriga Capital Managing Partner Jörg Mugrauer has shared our ESG and impact investing insights at leading industry conferences, including SuperReturn and Zero One Hundred DACH. In 2023, Violetta Sulzbach, ESG/Impact Analyst at Quadriga Capital, represented the firm at the Global Impact Investing Network (GIIN) Investor Forum, reinforcing our role as a signatory to the GIIN's Operating Principles for Impact Investing. Our current vehicle, Quadriga Capital Fund VI, is classified as an Article 8 fund under SFDR. We remain committed to maintaining high ESG standards across all our funds—past and present.

Section 3. Next steps

- What specific steps has your organisation outlined to advance your commitment to responsible investment in the next two years?

Quadriga Capital's investment strategy is centered on companies whose core products and services contribute to the achievement of the UN Sustainable Development Goals (SDGs)—or those with the potential to do so through strategic transformation or impact-driven growth. Over the next two to three years, we will focus on three key impact areas where our experience and industry expertise can generate the greatest value: Human Well-Being & Personal Growth Preservation of the Environment Sustainable Transformations All current and prospective investee companies are required to meet the highest ESG standards. Our dedicated ESG/Impact team works closely with portfolio companies to support their efforts and continuously improve their performance in these areas. To support this strategy, Quadriga Capital has developed QC-Sustain, a proprietary, modular platform that embeds ESG and impact considerations throughout the value creation process.

QC-Sustain integrates Environmental, Social, and Governance (ESG) principles with a clear focus on delivering long-term, positive impact on both society and the environment. Following a comprehensive upgrade to the QC-Sustain system, we have significantly expanded our collection of quantitative data points. Our partnership with software provider Reporting21 has enhanced our ability to analyze and understand the sustainability performance of our portfolio companies in greater depth. While many companies are already well-positioned, the increased data granularity has allowed us to identify targeted areas for further improvement and tailor our support accordingly. In 2024 and 2025, we are further strengthening the QC-Sustain Toolbox to consolidate this knowledge and provide structured, portfolio-wide support.

For example, in early summer 2023, we held a sector-specific sustainability workshop for our healthcare portfolio companies to address common ESG challenges. We plan to host additional workshops in 2024 to continue facilitating knowledge exchange and improvement across sectors. Quadriga Capital has also defined portfolio-wide sustainability targets to guide implementation and drive consistent progress across all investments.

Section 4. Endorsement

'The Senior Leadership Statement has been prepared and/or reviewed by the undersigned and reflects our organisation-wide commitment and approach to responsible investment'.

Name

Jörg Mugrauer

Does your formal responsible investment policy(ies) identify a link between your responsible investment activities and your fiduciary duties or equivalent obligations?

● (A) Yes

Elaborate:

The ESG and Sustainability Policy (the “Policy”) applies to the investment partnerships managed by Quadriga Capital VI GP Limited (“Quadriga Capital”) or advised by Quadriga Capital Eigenkapitalberatung GmbH (“German Adviser”). The Policy explains how Quadriga Capital approaches the integration of ESG and sustainability opportunities and risks into its decision-making process. Throughout the investment lifecycle, Quadriga Capital reports - internally and externally - on ESG and sustainability topics of its investee companies. Additionally, the Policy guides Quadriga Capital in supporting investee companies to create value for stakeholders, society, and/or the environment, while enhancing investment returns in line with its fiduciary duty and return generating goals. Quadriga Capital has the ultimate responsibility for its sustainable investment efforts. The Investment Review Committee provides advice to the Quadriga Capital Board of Directors on possible investments, thereby improving the quality and consistency of the decision-making process. Quadriga Capital monitors and reports on a quarterly basis on the integration of ESG and sustainability topics to its investors. Quadriga Capital and the investment team of the German Adviser monitor the mitigation or rectification of material ESG issues identified in the investment process. The ESG/Impact team of the German Adviser coordinates the integration of ESG and sustainability across all investee companies and provides advice to Quadriga Capital. It develops and shares best practice across the portfolio and helps to systematise ESG in the investment process. For its impact strategy Quadriga Capital has established an external Impact Advisory Board (“IAB”) consisting of three external board members, who advise on and monitor ESG and impact in the investment process as well as during the entire holding period of an investee company.

STEWARDSHIP: OVERALL STEWARDSHIP STRATEGY

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 22	CORE	OO 8, OO 9	N/A	PUBLIC	Stewardship: Overall stewardship strategy	2

For the majority of AUM within each asset class, which of the following best describes your primary stewardship objective?

(3) Private equity

(A) Maximise our portfolio-level risk-adjusted returns. In doing so, we seek to address any risks to overall portfolio performance caused by individual investees' contribution to systematic sustainability issues.

(B) Maximise our individual investments' risk-adjusted returns. In doing so, we do not seek to address any risks to overall portfolio performance caused by individual investees' contribution to systematic sustainability issues.

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 23	PLUS	OO 5, OO 8, OO 9	N/A	PUBLIC	Stewardship: Overall stewardship strategy	2

How does your organisation, or the external service providers or external managers acting on your behalf, prioritise the investees or other entities on which to focus its stewardship efforts?

Our investment strategy focuses on companies whose core products and services contribute to the achievement of the UN Sustainable Development Goals (SDGs), or which demonstrate the potential to become such a company through a corresponding transformation or impact expansion. We address three impact areas where our experience and industry knowledge can have the greatest impact. Human Well-Being & Personal Growth. We actively promote social change and support an aging and migrating population by providing in healthcare and education solutions and services. Preservation of our Environment To preserve the ecosystem, we focus on products, services and solutions that actively contribute to improving the environment through innovation. Sustainable Transformations Through digitalization and the use of innovative technologies, we focus on sustainable business models as well as supply chains, enabling the transition to a greener economy. All portfolio companies of the Quadriga Capital funds have implemented ESG standards in their business model since 2010. Beyond risk identification and avoidance, we support them with our QC-Sustain system.

PGS 27	PLUS	OO 8, OO 9	N/A	PUBLIC	Stewardship: Overall stewardship strategy	2

How are your organisation's stewardship activities linked to your investment decision making, and vice versa?

During the entire investment process sustainability related topics and stewardship activities are included into the decision-making process. The roles and responsibilities as well as the process steps for stewardship activities linked to your investment decision making are clearly defined and published in our ESG and sustainability policy under section "5. Processes Integration" (http://2023.quadriga-capital.de.w01ddba9.kasserver.com/wp-content/uploads/2023/02/qc-esg-and-sustainability-policy_vf.pdf) as well as in our Impact Principles disclosure statement under section "Processes Integration" (http://2023.quadriga-capital.de.w01ddba9.kasserver.com/wp-content/uploads/2023/02/qc-esg-and-sustainability-policy_vf.pdf) as well as in our Impact Principles disclosure statement under section 4. And 5.

(https://quadriga-capital.de/wp-content/uploads/2023/04/QC-OPIM-Disclosure-Statement_2023.pdf).

During the lead phase following steps are performed by the Impact & ESG and investment team and summarized in a dedicated Impact & ESG chapter in the "Preliminary Investment Recommendation" that is presented Impact Advisory Board and to the investment committee who then decides to aboard or pursue the investment process:

- Application of ESG exclusion criteria
- Identification of potential ESG themes

- Identification of thematic impact alignment with the three strategic impact objectives During the deal phase following steps are performed by the Impact & ESG and investment team and summarized in a "Final Investment Recommendation" that is presented Impact Advisory Board and to the investment committee who then makes the final investment decision:
 - Due diligence on material sustainability and ESG factors to identify risks and opportunities provided by an external advisor
 - QC-Sustain ESG due diligence questionnaire based on 85 ESG indicators
 - Identification and assessment of impact potential
 - Assessment and identification of key impact metrics/KPIs
 - External impact due diligence based on the QC-Sustain system including double materiality analysis
 - Impact target setting and roadmap During the Value Creation Phase following steps are performed by the Impact & ESG and investment team and summarized in quarterly reports and red-flag meetings with are provided to the investment committee and Impact Advisory Board as necessary:
 - QC-Sustain Impact Monitor
 - Monitoring of >300 sustainability indicators portfolio wide with sustainability software Reporting21
 - Monitoring of impact metrics/KPIs based on relevant impact theme for investee company
 - Sustainable ESG and impact value creation
 - ESG risk management
 - ESG incident reporting Quadriga's staff incentive system includes the adherence to the impact processes and the achievement of impact targets.
- All sustainability-related investment considerations are covered through Quadriga's QC-Sustain system, which also integrates ESG and non-financial risk considerations. ESG factors are an integral component of QC-Sustain and are considered in every investment.

STEWARDSHIP: ENGAGEMENT WITH POLICY MAKERS

CLIMATE CHANGE

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 41	CORE	N/A	PGS 41.1	PUBLIC	Climate change	General

Has your organisation identified climate-related risks and opportunities affecting your investments?

☒ (A) Yes, within our standard planning horizon

Specify the risks and opportunities identified and your relevant standard planning horizon:

Quadriga Capital has started performing individual materiality analysis for its investee companies and will roll out identification to the complete portfolio in the course of the year. Additionally, during the due diligence climate-related risks and opportunities are identified and evaluated and during the holding period the annual reporting and constant monitoring covers climate-related risks and opportunities.

☐ (B) Yes, beyond our standard planning horizon

☐ (C) No, we have not identified climate-related risks and/or opportunities affecting our investments

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 41.1	CORE	PGS 41	N/A	PUBLIC	Climate change	General

Does your organisation integrate climate-related risks and opportunities affecting your investments in its overall investment strategy, financial planning and (if relevant) products?

☒ (A) Yes, our overall investment strategy, financial planning and (if relevant) products integrate climate-related risks and opportunities

Describe how climate-related risks and opportunities have affected or are expected to affect your investment strategy, financial planning and (if relevant) products:

The analysis of climate-related risks and opportunities is an integral part of Quadriga Capital's strategy. These are identified in the pre-investment phase through an extensive due diligence with internal and external experts. During the holding period, possible risks and opportunities are monitored during the annual reporting as well as in regular updates of the sustainability road-map. Given the asset-light business model of Quadriga Capital's portfolio companies, there are only very limited climate related risks and transition risks applicable.

☐ (B) No, our organisation has not yet integrated climate-related risks and opportunities into its investment strategy, financial planning and (if relevant) products

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 42	PLUS	N/A	N/A	PUBLIC	Climate change	General

Which sectors are covered by your organisation's strategy addressing high-emitting sectors?

- ☐ (A) Coal
- ☐ (B) Gas
- ☐ (C) Oil
- ☐ (D) Utilities
- ☐ (E) Cement
- ☐ (F) Steel

- ☐ (G) Aviation
- ☐ (H) Heavy duty road

- ☐ (K) Aluminium
- ☐ (L) Agriculture, forestry, fishery
- ☐ (M) Chemicals
- ☐ (N) Construction and buildings
- ☐ (O) Textile and leather
- ☐ (P) Water

☒ (Q) Other

Specify:

Quadriga Capital's exclusion policy specifically excludes high-emitting sectors as coal, gas, oil.

Describe your strategy:

High-emitting sectors are specifically excluded from Quadriga Capital's investment strategy. The investment strategy focuses on companies whose core products and services contribute to the achievement of the UN Sustainable Development Goals (SDGs), or which demonstrate the potential to become such a company through a corresponding transformation or impact expansion. Quadriga Capital addresses three impact areas where our experience and industry knowledge can have the greatest impact: Human Well-Being & Personal Growth, Preservation of our Environment and Sustainable transformation.

- (R) We do not have a strategy addressing high-emitting sectors

Provide a link(s) to your strategy(ies), if available

PGS 43	CORE	N/A	N/A	PUBLIC	Climate change	General

Has your organisation assessed the resilience of its investment strategy in different climate scenarios, including one in which the average temperature rise is held to below 2 degrees Celsius (preferably to 1.5 degrees Celsius) above pre-industrial levels?

- ☐ (A) Yes, using the Inevitable Policy Response Forecast Policy Scenario (FPS) or Required Policy Scenario (RPS)
- ☐ (B) Yes, using the One Earth Climate Model scenario
- ☐ (C) Yes, using the International Energy Agency (IEA) Net Zero scenario

☒ (D) Yes, using other scenarios

Specify:

Quadriga Capital conducted an overall assessment concerning the exposure of our investments to climate related risks. Some of our investments have conducted a more detailed analysis under ISO 14001 and ISO 45001

- (E) No, we have not assessed the resilience of our investment strategy in different climate scenarios, including one that holds temperature rise to below 2 degrees

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 44	CORE	N/A	N/A	PUBLIC	Climate change	General

Does your organisation have a process to identify, assess, and manage the climate-related risks (potentially) affecting your investments?

☒ **(A) Yes, we have a process to identify and assess climate-related risks**

(1) Describe your process

Climate related risks will be identified both during the due diligence process in the pre-investment phase and during the holding phase. All Quadriga Capital portfolio companies have to report annually on close to 150 ESG KPIs. These KPIs help to identify potential risks that can be monitored and addressed. As an active majority investor for each investment the following steps are performed after the onboarding:

1. CSRD materiality screening (previously SASB materiality screening): 2.

Identification of stakeholder interests and demands (e.g.: customers, investors) Qualitative analysis according to CSRD requirements (impact and financial) Identification of possible sustainability goals, contributions, and solutions

Confirmed Impact Analysis Investment level impact thesis (output & outcomes) – thematic alignment ABC analysis & classification

Product and service impact generation: Analysing level of contribution and KPIs (IRIS Plus) Classification framework (what, who, how much, contribution, risk) Initial roadmap & impact metrics, hands-on: one or two impact generating products. Impact hypothesis based on SDGs

3. Sustainability focus areas in line with CSRD ESRS 1 Screening of the business model in relation to sustainability aspects (Risk & Opportunities) Roadmap based on QC-Sustain Strategy, key deficiencies, e.g governance, compliance.

Calculation of Scope 1 and 2 Greenhousegas-Emissions (GHG-Emissions) Screening of Scope 3 GHG-Emissions material areas (spent based) Recommendations for reduction of GHG-Emission.

(2) Describe how this process is integrated into your overall risk management

During the due diligence process, the Quadriga Impact & ESG team drafts a detailed description of Quadriga's proposed contribution, which outlines how Quadriga plans to contribute to the potential investee company's creation of impact along with its financial and managerial contributions. This contribution is based on a clear strategic intention of Quadriga to enhance businesses in their sustainability efforts. An active engagement is ensured by the internal Impact & ESG Team as well as the external Impact Advisory Board. Furthermore, Impact & ESG attributes are measured through the QC-Sustain system. Quadriga is constantly emphasising the importance of impact to all its stakeholders. Quadriga leverages its proven capabilities manifested in QC-Sustain for the creation of impact in the investee companies. By investing into respective targets and applying a consistent, systematic approach to integrating Impact & ESG considerations, Quadriga signals that impact matters. Quadriga is engaged by adopting active governance position and through the implementation of Quadriga's QC-Sustain with its modules, dedicated to improving material aspects of the value chain, to increase operational efficiency and to implement responsible business practices. Those matters are reviewed within the portfolio companies quarterly board meetings together with other e.g. financial risk factors.

☒ **(B) Yes, we have a process to manage climate-related risks**

(1) Describe your process

For each investment a roadmap based on the QC-Sustain Strategy and key deficiencies is developed, including climate related risks. See detailed description above.

(2) Describe how this process is integrated into your overall risk management

As part of the regular check-ins with the portfolio company, climate related topics are addressed. The execution of the roadmap based on the QC-Sustain Strategy and mitigation of key deficiencies is reviewed

○ **(C) No, we do not have any processes to identify, assess, or manage the climate-related risks affecting our investments**

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 49.2	PLUS	PGS 47	N/A	PUBLIC	Human rights	1, 2

During the reporting year, what information sources did your organisation use to identify the actual and potential negative outcomes for people connected to its investment activities?

☒ **(A) Corporate disclosures**

Provide further detail on how your organisation used these information sources:

For most of our investments, we rely on the information and supporting documentation provided to us by our investments. As we are a majority investor, we have very good insight into the internal processes. The company itself, has a duty to inform us about human rights issues. Once a year, we query more than 150 KPIs via our QC-Sustain system; in the event of ambiguities or risk cases, we request the supporting documents and maintain a direct exchange with the responsible persons.

☒ **(B) Media reports**

Provide further detail on how your organisation used these information sources:

In addition, we keep ourselves informed about public reports by regularly doing an online search. However, our primary source of information as a majority investor comes from the company itself, which has a duty to inform us about human rights issues.

☒ **(C) Reports and other information from NGOs and human rights institutions**

Provide further detail on how your organisation used these information sources:

For more general industry information we use reports from NGO etc.. Our primary source of information remains the company itself, which has a duty to inform us about human rights issues.

☒ **(D) Country reports, for example, by multilateral institutions, e.g. OECD, World Bank**

Provide further detail on how your organisation used these information sources:

For more general industry information, we use country reports. Our primary source of information remains the company itself, which has a duty to inform us about human rights issues.

☒ **(E) Data provider scores or benchmarks**

Provide further detail on how your organisation used these information sources:

For more general industry information, we use data provider scores or benchmarks, e.g. SASB. Our primary source of information remains the company itself, which has a duty to inform us about human rights issues.

☒ **(F) Human rights violation alerts**

Provide further detail on how your organisation used these information sources:

For more general industry information, we use data provider scores or benchmarks, e.g. SASB. Our primary source of information remains the company itself, which has a duty to inform us about human rights issues.

☒ **(G) Sell-side research**

Provide further detail on how your organisation used these information sources:

We only use sell-side research as a starting point. We do not rely on the sell-side research, we do our own ESG and impact DD with proprietary data from the investment in question.

☒ **(H) Investor networks or other investors**

Provide further detail on how your organisation used these information sources:

We only use information from investor networks as a starting point. We do not rely on the sell-side research, we do our own ESG and impact DD with proprietary data from the investment in question.

☒ **(I) Information provided directly by affected stakeholders or their representatives**

Provide further detail on how your organisation used these information sources:

Stakeholder dialogues are held to obtain information on human rights topics and potential concerns. Most of our investee companies have a whistle-blower system and the duty to inform us about the relevant cases. By end of 2023 all companies will have a whistle-blower system.

☒ **(J) Social media analysis**

Specify:

In addition, we keep ourselves informed about public the public opinion by regularly doing an online search. However, our primary source of information as a majority investor comes from the company itself, which has a duty to inform us about human rights issues.

Provide further detail on how your organisation used these information sources:

MONITORING

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PE 6	CORE	OO 21	PE 6.1	PUBLIC	Monitoring	1

During the reporting year, did you track one or more KPIs on material ESG factors across your private equity investments?

☒ (A) Yes, we tracked KPIs on environmental factors

Percentage of portfolio companies this applies to:

- ☐ (1) >0 to 10%
- ☐ (2) >10 to 50%
- ☐ (3) >50 to 75%
- ☐ (4) >75 to 95%
- ☒ (5) >95%

☒ (B) Yes, we tracked KPIs on social factors

Percentage of portfolio companies this applies to:

- ☐ (1) >0 to 10%
- ☐ (2) >10 to 50%
- ☐ (3) >50 to 75%
- ☐ (4) >75 to 95%
- ☒ (5) >95%

☒ (C) Yes, we tracked KPIs on governance factors

Percentage of portfolio companies this applies to:

- ☐ (1) >0 to 10%
- ☐ (2) >10 to 50%
- ☐ (3) >50 to 75%
- ☐ (4) >75 to 95%
- ☒ (5) >95%

- ☐ (D) We did not track KPIs on material ESG factors across our private equity investments

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PE 6.1	PLUS	PE 6	N/A	PUBLIC	Monitoring	1

Provide examples of KPIs on material ESG factors you tracked across your private equity investments during the reporting year.

(A) ESG KPI #1

We track over 150 KPIs covering mandatory and voluntary standards. As examples: Social KPIs related to employee numbers, diversity, inclusion, ethics and workplace policies and practices

(B) ESG KPI #2

Environmental KPIs related to energy consumption, GHG emissions, climate initiatives, water and waste reduction, biodiversity

(C) ESG KPI #3

Governance KPIs as code of conduct, compliance principles

(D) ESG KPI #4

(E) ESG KPI #5

(F) ESG KPI #6

- (G) ESG KPI #7
- (H) ESG KPI #8
- (I) ESG KPI #9
- (J) ESG KPI #10

PE 10	PLUS	OO 21	N/A	PUBLIC	Monitoring	1, 2
-------	------	-------	-----	--------	------------	------

Describe how you ensure that material ESG risks are adequately addressed in the private equity investments in which you hold a minority stake.

All Quadriga Capital portfolio companies have access to the proprietary developed method and process knowledge ("QC-Sustain"). The ESG performance of Quadriga Capital's portfolio companies are systematically assessed annually and possible risks identified. The ESG/ Impact team gives a feedback on this assessment and is in close contact with the different Boards to implement possible changes and updates.

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PE 11	PLUS	OO 21	N/A	PUBLIC	Monitoring	2

Describe how your ESG action plans are currently defined, implemented and monitored throughout the investment period.

Quadriga Capital pursues an integrated approach following its proprietary developed method QC-Sustain. All Quadriga Capital portfolio companies have to report annually 150 Impact/ ESG KPIs, following the analysis of these KPIs action plans and specific improvements are implemented. In general action plans are defined by the ESG/ Impact team and then discussed internally with the Impact Advisory Board, the partners and investment officers. ESG/ Impact is also a fundamental part of supervisory meetings.
